PROJECTS

OJTrack – Attendance Monitoring and Reporting System (Capstone Project)
Full-Stack Developer

- Designed and developed a mobile and web-based attendance monitoring system, simplified attendance tracking and report generation for OJT participants.
- Implemented QR code-based attendance verification, reducing manual recording processes and improving accuracy.

PRimeSys – Web-Based Procurement Management System
Full-Stack Developer

- Developed a full-stack web application using React.js, Node.js, Express.js, and MySQL to centralize procurement records and automate procurement workflows.
- Implemented role-based authentication, purchase request management, supplier bidding, purchase order tracking, and real-time status monitoring features.

WORK EXPERIENCE

OJT Intern - Gothong Southern Shipping Lines February 2026 – April 2026

- Provided technical support and troubleshooting for hardware, software, computer systems, printers, and network devices to resolve employee IT issues.
- Assisted with system maintenance, software configuration, preventive maintenance, and IT-related troubleshooting to support reliable daily operations.

AI Data Transcription Specialist October 2024 – December 2024

- Transcribed, reviewed, and validated multilingual audio data for AI training and speech recognition projects while following project-specific quality standards.
- Corrected automated speech recognition (ASR) outputs and maintained accuracy, attention to detail, and timely completion of assigned data annotation tasks.

Web Developer – Self Employed July 2024 – December 2025

- Developed responsive portfolio and e-commerce websites using HTML, CSS, JavaScript, and React.js based on client requirements.
- Customized website layouts and functionality, communicated with clients to gather requirements, and delivered completed web projects on schedule.

EDUCATION

North Eastern Mindanao State University – Cantilan Campus 2022-2026
Bachelor of Science in Information Technology
Graduated: June 16, 2026
